Notation: Each number represents a four beat measure (except a waltz has 3 beats.). The number tells what chord to play without being restricted to a specific key. (See the chart below) If a seventh chord is a major part of the song then ⁷ will appear after the chord. Some measures are split. The vertical line (|) divides the measure in half so the chord on the left of the line gets two beats, and the chord to the right gets two beats. In some songs a chord only receives two beats, so the symbol is (1|*) meaning the second half of the measure does not exist.

#/Key								
1	A	Bb	B	C	D	E	F	G
4	D	Eb	E	F	G	A	Bb	C
5	E	F	F#	G	A	B	C	D

Songs are played in different ways by different players, so the chords may not match what you are used to. However, blunders occur. If you find an error, please contact John Elberfeld at JElberfeld@aol.com with information about the error.
